THE STATE OF THE

Bill Preventing Removals in Street Cleaning Department Passed in the Assembly, Also Bill Which Makes Fee Officers Kings County Salaried Ones.

ALBANY, April 1.-The Assembly to-night passed Senator Brackett's two bills, which the stock and general corporation laws by liberalizing their provisions in accordance with the recommendations of Gov. Odell in his annual message and they now go to the Governor for his approval.

The Assembly passed Mr. Adler's bill, providing that no man appointed as a general superintendent, assistant superintendent, superintendent of stables, superintendent ent of final disposition, assistant superin tendent of final disposition, district super intendent, time collector, section foreman, dump inspector, assistant dump inspector, tug and scow inspector, stable foreman assistant stable foreman, and master mechanic in the New York city Street Department can be removed except upon written charges

The Assembly also passed Mr. Bell's bill providing for an appropriation by the State of \$5,000, to be added to the amount raised by the Veterans' Association, for a monu ment to the members of the Seventy-first New York Volunteer Regiment who were killed or died from wounds or disease during the Spanish-American War. The monu-ment is to be erected in Mount Hope Ceme-

tery, Westchester county.

Mr. H. Wilson's bills, making the offices of Register, Clerk and Sheriff of Kings county salaried ones and turning their fees into the public treasury passed the Assembly. The Democrats tried to amend the bills to make the salary of the Register and Sheriff larger, but the propositions were defeated.

By a vote of 78 to 14 the Assembly passed Mr. Bennett's bill to permit one person to be admitted to the bar without passing the

Regents' examination.
Assemblyman Weekes asked that his bill providing for the appointment of a commission of fifteen members by the Governo to examine into the financial affairs of New York city, be advanced. Mr. Sanders (Tammany) objected and the bill took the usual course, being referred to the Cities Com-

After a short discussion, and by a vote of 88 to 34, the Assembly passed Senator Brackett's Single-Headed Police Commission bill for Saratoga Springs. This bill has been a factor in the village election.

The minority members attacked Senator Marshall's bill providing for the abolition of the Kings County Penltentiary. They contended that the bill was in the interests of real estate speculators. The bill was passed by a vote of 83 to 27.

Senator Hennessey's bill, providing for the abolition of the grade crossings of the Spuyten Duyvil and Port Morris Railroad at Kingsbridge road. East 230th street, Broadway Corlear street, Tibbett avenue, West 280th street and West 227th street, in the borough of The Bronx, passed the Assembly

At the request of the Manufacturers' Association, Assemblyman Morgan introduced a bill providing for the appointment by the resources in a little over three months of Governor of a committee of seven members

to provide New York city with a proper water supply which will prove sufficient for the wants of the city for the next half century. The committee is to inspect all the watersheds of the State and report its findings to the Board of Estimate and Apportionment and with the approval of the New York city Water Commissioner: The committee is to have the power to condemn lands, construcmains and lay pipes for the water supply. It s contended that by the repeal of the Raman act of 1895 the Water Commissioner now has the same powers that the bill seeks to give the committee, but he does not exercise them, from jumping in and claiming valuable watersheds, or acquiring them for a mere nothing and sell them to the city at an enormeus fit. Power is given the committee to con-nn lands for watershed rights an indication that no fixed time has

demn lands for watershed rights.

As an indication that no fixed time has been set for the adjournment of the Legislature and that there are doubts as to when the legislators will finally get away, the Assembly to-night adopted a resolution extending the time in which the various committees could receive bills and transact business until further notice. After April 1, according to the rules of the lower house the committees go out of business, the Committee on Rules always taking charge of all legislation for two weeks previous to adjournment adjournment

Assemblyman Allds introduced two bills, appropriating \$353.000 to pay judgments warded by the State Court of Claims for

claims arising out of the improvement of the canals under the 8a,01,001 law.

Assemblyman Ruehl introduced a bill dividing Eric county into two counties, the city of Buffalo to form the new county, which is to be known as Buffalo county.

The Senate passed these bills:

Senator Krum's, empowering the State Comptroller to appoint at once an inheritance ax appraiser for Queens county.

Senator Elsberg's, authorizing the exchange of a portion of St. Nicholas Park for a part of the site of the College of the City of New York. Senator Mills's, empowering Mount Vernon to construct an outlet sewer and purchase a Carnegie library site.

SEVATOR RAINES'S BRIDGE BILL He Says It Is in the Interest of the New Yor

and New Jersey Bridge Company. ALBANY, April 1.-Senator Raines said to-night that his bridge bill, introduced on Friday, is in the interest of the New York and New Jersey Bridge Company The company contemplates striking Manhattan Island with its bridge at about Fifty-minth street and then running along the North River dock then running along the North River dock front to the Battery, and this bill would allow the company to accomplish this object. It also provides that the company shall pay the city annually sper cent of its gross earn-ings from the operation of the bridge on the New York side. The city wants a per cent annually and it is likely that a compromise on 5 per cent, will be effected.

For Charitable Work in Cuba.

ALBANY, April 1 .- The Benevolent Society of Divine Providence has asked permission of the State Board of Charities to incorporate for the purpose of carrying on charitable education and the maintenance of orphan children in Cuba. The society's principal office is in New York city. The directors are trehbishop Corrigan, Bishop Farley, John D. Crimmins, Joseph F. Daly, George D. LAWMAKING IN ALBANY, THREE-PLATOON POLICE PROVISION. mittee Repudiates It and Will Mor

> ALPANY, April 1.- The three-platoon police provision in the revised New York city Charter, reported on Friday by the Senate Cities Committee, is to be stricken out. Senator Stranghan, chairman of the committee made a public announcement to that effect in the Senate to-night. The provision was inserted in the Charter with the knowledge of Gov. Odell, and he and other leading Republicans had seemed to favor the provision through incorrect statements of its effect by the promoters of the clause. To-night Gov. Odell and Senator Stranshan and other prominent Republican Senators washed their hands of the three-platoon idea and when the Charter comes up in the Senate it will be stricken from the bill. In announcing this decision, Senator Stranahan to-night

be stricken from the bill. In announcing this decision, Senator Stranahan to-night solid:

"In the report of the revised Charter for Greater New York there was an amendment incorporated providing for and applying the eight-hour principle of continuous service to the patrolinen of New York city. The proposition is one upon which much was said for and against before the committee, but in the form in which it was reported it never received full consideration in the committee. However, it was deemed wise, as the bill had to be reported Friday morning and speedily printed, to incorporate the provision in the bill as a tentative proposition, without committing the committee to advocacy of it. Some of the newspapers have thrown several fits because the amendment was incorporated in the Charter and it is only proper to allay that inflamed cendition of the public mind by announcing that the committee do not propose to stand by the proposition, but will move to strike it from the bill."

Rumors were general about the lobbies to-night that \$90,000 had been raised among the policemen to put the three-platoon amendment were not likely to redistribute the fund among its subscribers.

Assemblyman Cherardi Davis has decided not to press the amendment to the charter giving the Mayor the power to appoint the two Deputy Police Commissioners. There is also some doubt as to what course the Assembly Cities Committee will take in regard to charter revision. Chairman Kelsey says that while his committee has made a number of amendments, he is in favor of waiting until the Senate bill comes to the House and make the amendments then, instead of going to the expense of having two separate charters printed. The committee will take action. The Assembly has incorporated a number of amendments to the charter that have already passed the Legislature in the form of separate bills, and in this particular differs from the Senate Committee.

Company's Charter Postponed. ALBANY, April 1 -The case brought by William R. Hearst, of New York city, against the Ramapo Water Company for the annulment of the company's charter on the ground of non-user, was put over until the May term of the Supreme Court here to-day. This is the second postponement which has been had, the case having gone over last month to the April term despite the objection of ex-Senator David B. Hill, chief counsel for the plaintiff. At that time it was alleged as the reason for the delay that the attorneys for the defendant had not had time to prepare their case fully send that ludge Edwin Countryman, one of the the delay that the attorneys for the defendant had not had time to prepare their case fully and that Judge Edwin Countryman, one of the counselexpected to be retained by the company was in Bermuda. This morning, on the calling of the calendar for the April term of the court to begin to-motrow, Herbert R. Limburger of New York, attorney for the company, said the case would go over until next month by mutual consent of counsel. No reason was given for the delay this time.

DEFEATS JOHNSON, THE SWEDE.
THE WEIGHT-LIFTING MATCH. ictor Excels in a Double Grip Test With Much

to Spare and Puts Together 3,236 Pounds in Eight Events-Bar Bells Are Tossed About Handily-McCoy Punches the Rag. The weight-lifting match at the Grand entral Palace last night between G. W. tolandow, who says he is the champion of America, and August Johnson, the so-called champion of Sweden, was rather easily wen by the former. There were eight events tolandow had lifted a total of 3,236 pounds. while Johnson, with 2.862 pounds to his credit, failed to handle a 225 bar bell in the last test Rolandow is a powerful man above the waist specially in the arms, shoulders and back, but his legs are not what a critical spectator would expect to see. Johnson is not so powerful in point of physique, though he comes here with a big reputation. There were probably 1,500 spectators on hand when the sport began, and through it all a man in the front

row slept soundly, even to a snore.

The first test was what is known as a "righthand jerk from the shoulder." Each man used his own bar bell. Johnson was the first to show and after one failure he put up above his head 211 pounds. Rolandow, up above his head 211 pounds. Rolandow, in his first trial, put up 198. The second test was a "one hand grip left." A bar bell was placed upon the floor, with a towel under each end. The bell had to be lifted just enough to allow the towels to be pulled out. Rolandow did the trick with a quick movement, the bell weighing 485 pounds. Then Johnson tried it, but he could not budge the big weight. He succeeded with 412.

A "left-hand jerk from the shoulder" was the third event. Johnson failed twice, but the third time he put up 201 pounds. This was more than Rolandow could do, for his best effort was 186. Then a grip-lifting machine was rigged up and Johnson looked it over suspiciously.

"It's all right," said Rolandow. "Don't be afraid of it. It's as fair for one asit is for the other."

As the weights used in the previous tests had been officially weighed on the stage by Lewis C. Hopkins and as it was impossible to weigh this new arrangement, because of its bulky construction, Johnson had to take Rolandow's word that each plate in the machine weighed fifty pounds and that the appliance by which the weight was lifted was fifty pounds, too.

"We will try a one-finger lift," said Rolandow, as he covered his right hand with resin. He thrust one of the fingers of his right hand through a noose of hermp and tugged away until he was purple in the face. Suddenly the noose slipped and Rolandow pulled his finger out with the skin scraped off as if it had been done with a razor. He tried the left hand and after a struggle, during which it seemed as if he might burst a blood vessel, he lifted what was sald to be 500 pounds.

"Go ahead, Johnson!" was Rolandow's imperious command, as the crowd cheered Johnson took the skin off of two fingers in vain attempts to lift the same weight and then had fifty pounds taken off. With apparent ease he lifted what was announced to be 450 pounds. This put Rolandow well in the lead and he smiled confidently.

Johnson excelled in the "one-hand swing" that meant swinging ar bar bell from the ground with one hand straight up over the head—for he got away with 179 pounds to 176 for Rolandow. They went back to the lifting machine for the sixth test, to see which could lift the most with a two-hand grip. Rolandow had two dumbbells, 120 and 160 pounds respectively, chained to the plates in the machine, and when all was ready he got upon the table-like platform above the inass of iron and seized the grips. Rolandow bent his head forward, arched his back, stooped his knees and then put on the pressure. Gradually he lifted the whole business, said to aggregate 1,220 pounds, an inch off the floor and let it drop. Johnson eyed him curiously and got upon the table for his try. His le

.120 pounds.
The seventh event went to Johnson, with a two-hand swing put up 289 pounds above his head in a double movement. "I sin't goin' ter kill meself" exclaimed Rolandow, "ter I don't have ter!" So he Rolandow got 252 pounds up and was Joudly applanded. That brought his total up to 3,236 pounds. Johnson failed three times with a 225-pound bell.

As side issues Leo Pardello, the "Italo-American" wrestler, threw Phil Kelly in thirteen minutes of a fifteen-minute time limit bout. Kid McCoy and Rolandow wound up the programme with bag purching. It

The story is also about that the intention of the Vanderbilt interests is to consolidate the anthracite properties under one management, this to be the Temple Iron Company, of which Mr. Baser is to be the head. The company has a blanket charter which permits it to engage in any business whatever. The intention is to purchase for this company the Reading Coal and Iron and the Lehigh Coal Company properties, and the general impression is that the Pennsylvania Railroad has sufficient interest in the plan to insure the sale of its anthracite coal heldings.

The 1,379 mares were served by 319 stallions, twenty-seven of which are in the 2:10 list, fifty-one in the 2:20 list and sixty-seven in the 2:30 list. Thirty-five sires have ten or more mares named, and it is a significant fact that two sons of Baron Wilkes, Oakland Baron, a Futurity winner, and Moke, Sire of another Futurity winner, lead the list, Oakland Baron with forty-six, and Moke with forty-three. The mares are a choice lot. No less than 291 of them have race records, from the 2:04 of the ex-queen Nancy Hanks down to the 2:30 of Maggie Sultan, dam of the ill-fated Nico, 2:08. Thirty-three of them have records of 2:13 or better, forty-six are in the 2:15 list, sixty-eight in the 2:20 and 143 in the 2:31 list, sixty-eight in the 2:20 and 143 in the 2:30. C., April 1. - The first annual open tournament for the United North and South Championship began here to-day

with a thirty-six-hole qualifying round, the best sixteen gross scores to qualify for the championship. In order to facilitate matters the same scores were substituted for a thirtysix-hole handicap competition by merely adding the handicaps and deducting them from the gross scores. The course is 5,270 yards long and most admirably laid out over the rolling, sandy hills of North Caronna, which are so well adapted for golfing purposes and abound in natural hazards. Dr. L. L. Harban, who won the All-Florida championship, did not do so well on his first round, as he did a 90; but in the afternoon he went out in 37 and came back in 42, making a new eighteen-hole record for the course of 79.
His 16t for the day's play is also a new thirtysix hole record for the course. He played
grand golf and his excellent work was thoroughly enjoyed by the large gallery. The
sixteen who qualified for the championship

were:

COLUMBIA, S. C., April 1—The weather was threatening, with occasional sprinkles of rain to-day, but that did not prevent a arge attendance at the Palmetto Golf links or a good entry list in the handicap foursome natch that was begun to-day with eighteen toles and will be continued to-morrow and vednesday with thirty-six holes. The re-

club after the games.

After the annual lunch a series of contests took place which lasted all the afternoon. Miss B Livingston won the cup presented by Sheffield Phelps for the longest drive Mrs J. C. Mallory won the cup offered by Herbert C. Leeds for the best putting and Mrs. J. P. Browning carried off the Valentine-Mott cup for the best approaching and putting. H. M. Harriman won the cup given by Mrs. Mott for men's driving. Marion Wright won Mrs. H. Duryea's cup for men's approaching and putting and G. Wheelook won the cup presented by Mrs. Thomas Hitchcock Jr., for the home hole contest.

Gans Eastly Whips Flaherty.

BALTIMORE, April 1 .- The fight to-night before the Eureka A.C. between Joe Gans and Martin Flaherty, which was scheduled to go twenty rounds, came to an end in the fourth round, Flaherty's seconds throwing up the sponge. It was Gans's fight from start to hish, as Flaherty was completely outclassed. Flaherty assumed the aggressive from the start depending upon landing a knock-out blow, but Gans was too clever and easily kept out of reach of the Lowell man's dangerous swings. The men then began to rough it and had to be warned repeatedly for hitting in clinches and not until the police threatened at the board did they cease. Flaherty to stop the bout did they cease. Flaherty tried hard to reach Gans's et mach, but did not succeed often enough to do any damage. Gans, on the other hand, played for the face and law and did not hand, played for the face Gans, on the other hand, played for the face and jaw and did not have any difficulty in landing hard and often. Flaherty fought gamely and took good punishment. Early in the battle his eye was puffed and his face showed the marks of punishment, while Gans did not show any disastrous results of the fight. In the fourth round Gans landed right and left on the law and Flaherty went down. He jumped to his feet, however, and rushed at Jee only to get another smash on the jaw which sent him to the floor again and then his seconds threw up the sponge

A Half-Mile Track to Be Added to Charter Oak Park. HARTFORD, April 1 - The Charter Oak

Park managers have decided to add a halfmile track to their property. It will be vill enclose a field which will be laid out for athletic sports. This new track will be lo cated at the southeastern part of the park cated at the southeastern part of the park grounds and will be independent of the one-mile course. The Gentlemen's Driving Club of this city will use it for matinee racing, and it will be available for college and other athletic sports. To make this a covered track is the principal object.

The number of nominations to the Charter Oak Futurity, to be trotted in 1904, is 1,572. The principal nominations are: Palo Alto Farm, 63; Bitter Root Farm, 37; Empire City Farm, 63; Bitter Root Farm, 48; Suburban Farm, 32; J. Malcom Forbes, 25; J. E. Thayer, 18; Maple Lawn Farm, 22; W. R. Janvier, 10. The entries to this stake closed on March 15

W. B. Duncan, Jr., the managing director of the new Cup defender, now in course of of the new cup defender, now it course of construction at Herreshoff's yard, arrived in town from Alken yesterday morning. He said that he had not had time to see how things were progressing, but expected to go to Bristol at the end of the week. He said the crew for the yacht were engaged and would report soon. The Mount Morris, the steamer chartered as a tender for the yacht, would be at Bristol next week ready for use.

George Bothner, the instructor of the Pasime A C., and Leo Pardello of Italy wrestled catch-as-catch-can style at the London Theatre last night, the result being a draw. The time limit was fifteen minutes. Pardello was stronger and heavier than his opponent, but this did not offset the quickness and cleverness of the latter. Established 1823.

hamrock's Mast Too High to Go Under the Brooklyn Bridge. According to reports from the other side

the Shamrock II. is to have a pole mast and this spanis to be 148 feet from deck to truck It is said that this innovation will save a great deal of weight aloft and will be even better than the telescopic topmast used on the Columbia last year. Only once in a race for the America's Cup has it been necessary to house topmasts and Designer Watson is said to be willing to take a chance that the one steel spar on the Shamrock will stand this year. A short time ago the Royal Ulster Yacht Club in a request sent to the New York Yacht Club, asked that the Shamrock be measured in the dry dock of the navy yard. If there is any truth in the report that the Shamrock's mast is to be 148 feet above the deck it would be impossible to get her to the navy yard by going up the river. The Brooklyn Bridge at high water is 125 feet above water, so that allowing for a fall of tide of six feet it would be impossible for the Shamrock to go under the Bridge. Then again by the time the Shamrock gets here the cables will be strung across the new bridge and this will prevent her from reaching the navy yard by way of the Sound. America's Cup has it been necessary to house

Commodore Frederick T. Adams of the Larchmont Yacht Club has appointed John Lovejoy, Howard W. Coates and Frank Hardy the Regatta Committee for the season This committee has issued its racing programme. The spring regatta will be sailed on June 15. The next event will be the twentieth annual regatta, which will be sailed on July 4. For this event the steamer Albertina has been chartered for the use of the club members and their guests. Larchmont race week will begin on July 13 with an open regatta for all classes. During this period there will be contests for the 75-foot class of schooners, 70-foot and 51-foot classes of sloops, Larchmont 25-footers and 21-foot raceabouts. These yachts will race every day except on Tuesday, when the programme will consist of gig races and water sports. There will be open regattas for all classes on July 17 and 20, and races for particular classes on other days. Points will be awarded on this basis. The winner will get twice the number of the second yacht, the second twice the number of the fourth, and so on, the last boat receiving credit for one point. First and second prizes will be given in each class. The Adams cups, offered by Commodore F. T. Adams, will get to the winners in the series for Larchmont 25-footers and 21-foot raceabouts.

On Aug. 31 there will be a regatta for 75-foot schooners and 70, 51 and 43-foot sloops. The fall regatta for all classes will be sailed on Sept. 2, Labor Day, and Cup Day will be Sept. 14. All schooners will race for the Larchmont cup, and the other races will be for the big class of yawls, 70, 51 and 43-foot sloops. period there will be contests for the 75-foot

Another Trophy for Seawanhaka Knockabouts One of the most successful series of races sailed under the auspices of the Seawanhaka Corinthian Yacht Club last year was for the Centre Island cup, a trophy given . a member of the club, who modestly presers to be unknown. The donor has been induced to offer another cup to be raced for under similar large attendance at the Palmetto Golf links or a good entry list in the handicap foursome match that was begun to-day with eighteen holes and will be continued to-morrow and Wednesday with thirty-six holes. The results:

Sheelook and Grant 4 defeated Phelps and Wheeler 13, 6 up and 5 to play; H. M. Hartiman and Brooks, scratch, defeated browning and Morgan, 5 up and to play. Mrs. C. Oliver Iselin served to at the golf club after the games.

The winner of each race will receive the usual pewter mug given by the club and the club will also give a prize to the yacht finishing second in the series. Should the yacht winning first or second prize be manned with a strictly amateur crew in all ber races, the club will present individual Corinthian prizes to each member. The dates set for the races are June 15 and 27, July 6, 20 and 27 and Aug. 10 and 17. The course will be the one used by knockabouts, off the clubhouse. The preparatory signal will be at 3 o'clock and the starting signal five minutes later.

More Workmen for the Lawson Boat. Boston, April 1 .- The Independence promses to be completed in shorter time than any boat ever built in modern days with a view of competing in the trial or Cup races. It was six weeks ago to-morrow that the ironsmith began putting the various parts of the boat's hull together and the work has now entered upon the final stage. There is evidently a desire to get the craft into the water as soon and earlier if possible than either the Herreshoff boat or the English challenger, for a number of additional hands were put to work this morning. The steel topsides plates are all in place except one on each side, just forward of the mast step and this is being left open until the webbeam deck bracings are in place. The aluminum plates for the deck have not arrived and the builders would like to have them in the shop. This metal is comparatively easy to handle but the deck space to be plated is so large that it will require considerable time. Both rudder frames are being made ready for plating. It was six weeks ago to-morrow that the

Getting Ready for the Launching of the Bristol Cup Boat.

BRISTOL, April 1.-It is now a case of finishing up and getting ready for the launching with the Cup defender. In line with other preparations for the event, which other preparations for the event, which may take place on or about April 21, owing to the extreme high tides predicted at that time, the buoy to which the yacht will swing in the harbor when she is affoat was being overhauled yesterday afternoon and the ground tackle put in shape. It will be set in the harbor about two hundred yards off shore from the wharves of the boat yards. Yesterday afternoon the riveters in good numbers were engaged on the sheer strake plates amidships.

Of the three games played in the Military League indoor baseball series on Saturday night two were close and exciting, while the other was quite one-sided. At the Eighth Regiment armory the home nine played the Sixty-ninth Regiment. The latter had their star battery, Barry and Coughlin, white the Eighth pinned their faith to Cullinane and Devery In the ninth inning the Sixtyninth scored on a hit, two outs and a muffed fly Each now had made fourteen runs. The Elghth was blanked in its half of the tenth, but the Sixty-ninth scored a run and won. At the Ninth Regiment armory the home team won from the Seventy-first by a score of 8 to 6. The latter's battery was Crawford and Parkhurst, while Eitlinger and Thompson were in the points for the Ninth. The Seventeenth Separate Company nine of Flushing fell easy victims to the heavy-hitting Forty-seventh team at the latter's armory, Williamsburg. The Flushing men could do nothing with the pitching of Thomes, while Easton was easy for the winners. The score was 18 to 2 and Devery In the ninth inning the Sixty-
